Using Energy Work Skills to Support Your Personal and Professional Life

Have you ever felt, when you entered, a room that something was off or you shouldn't be there? Are you so sensitive to the feelings of others that you take on what they feel, but don't know why, or how to change this? Subtle Energy is real and we are affected by it every day and everywhere. Master Teacher and Energy Healer Dan Buffo can tell you why you are right that you are experiencing these things and how to tap into this life force within and use it for healing yourself and others. In addition to teaching and practicing Earth Energy work, Dan is a Level III Reiki Master, these two modalities of energy work can be used together, to enhance the work of Reiki practitioners.

INTRODUCTION TO ENERGY WORK:

Friday, June 9, 2016, 8 AM to 5 PM

Hands-on training for those who have little or none in this area or those who wish to refresh their skills and knowledge, to use in practicing energy work with family, friends or community; developing a practice as an energy work healer; or integrating energy work into other healing modalities such as talk therapy, yoga, physical training, coaching etc.

1. Participants learn how to access life force from the earth. We call this **grounding**.
2. How to fill their energy body and to fill other's energy fields. We call this **charging**.
3. And how to identify and clear energy that is congested or otherwise less than life supporting, from the energy bodies of those you wish to help. We call this **clearing**.
4. This class also introduces the use of subtle sense perception of energy, chakras and other attributes of energy bodies.
5. Participants will be introduced to receiving guidance from their own soul seat, useful for getting practical answers to questions beyond our present knowledge.

For those new to this modality, who wish further education, this class is the prerequisite for the intermediate class offered below.

Prerequisites for Introductory Class: None.

Class fee: \$150; \$70 non-refundable deposit to reserve your space, balance due at class.

INTERMEDIATE ENERGY WORK:

Saturday, June 11, 2016, 9 AM to 6 PM

1. We will refresh hands-on foundation skills like charging, grounding and clearing, by practicing these on each other, often with one on one coaching.
2. These foundation skills will be further developed into more specific applications, such as how to charge areas of the field that are too tight to receive; and how to clear specific physical and emotional symptoms. For example, how to support those with anxiety attacks, wound healing – even to the possibility of healing without surgery, in some cases.
3. You will learn the key to the specific skills, learned through hands-on practice, which is to regulate your energy field to enhance and develop your subtle senses; to notice enough of the other's energy field to know them better, just as we do by observing the, posture, face, gestures, or use of speech. This allows the healer to assess clients more specifically, and support more effectively.
4. Students will learn the basics of the Healers Stance, useful in supporting your own life journey as well as those you wish to serve.
5. For those who do not have formal, or enough, training in basic energy work skills, this class qualifies you to attend the advanced Sunday class.

Prerequisites for Intermediate Class: Introductory class or the equivalent.

Class fee: \$200; \$90 non-refundable deposit to reserve your space, balance due at class.

ADVANCED ENERGY WORK:
Sunday, June 11, 2016, 9 AM to 6 PM

1. This class is intended for students who are familiar with hands-on energy work, or give at least a few energy work sessions per month, or use energy work in other healing modalities.
2. The focus of this class is how to use your human voice as an energy work tool. And, we will focus on additional energy work techniques to use with specific symptoms. This class is for students who have a healing practice, or are focused on preparing for a practice using energy work or complimentary modalities. We will focus on your developmental edge. Each student will be assessed and individual goals set in class, with one-on-one coaching. Emphasis will be on hands-on and voice practice.
3. Your Healer's Stance will be developed and applied in practical ways at the professional level with energy work and other common healing modalities.

Prerequisites for Advanced Class: Intermediate class or the equivalent.

Class fee: \$225; \$100 non-refundable deposit to reserve your space, balance due at class.

ADVANCED ENERGY WORK FOR TEACHERS AND GROUP LEADERS:
Friday, June 10, 2016, 8:30 AM to 7 PM.

1. This class is limited to 6 participants, who have experience as teachers or group leaders, interested in learning and using energy work skills and techniques to hold, direct and support the energy of the group or class, regardless of the teaching content.
2. You will be interacting with the students of the introductory class, see above, using your best knowledge and practice of energy work principles and your current development of subtle sense perception. The Teaching team will then advance your perception and skills from that point in a custom curriculum designed with and for you before class. Please contact me with your specific goals.
3. The primary focus is right use of the human voice, the Healer's Stance, and practical use of information gained in contact with the student/client, in the context of holding and leading a group.
4. Optional: for those who wish to develop the ability to discuss client's issues in the context of energy work, you will be answering questions from the introductory students, with my coaching and support.

Prerequisites for Advanced Group Leaders Class: Intermediate class or the equivalent.

Class fee: \$225; \$100 non-refundable deposit to reserve your space, balance due at class.
